## **INVITATION FOR PUBLIC MEETING**

### **UPCOMING TOWN-WIDE UTILITY UNDERGROUND CONVERSION PROJECT**

An informational only public meeting will be held at Town of Longboat Key, Town Hall, 501 Bay Isles Road, Longboat Key, Florida 34228, Friday, April 27, 2018, at 10:00a.m. The Town is in the planning stages of a town-wide utility underground conversion project. The largest component of this project is the undergrounding of currently all overhead electric power facilities owned by Florida Power and Light Company ("FPL") which generally consist of wires, transformers, switch boxes, vaults, service lines, utility poles and other related apparatuses. In addition to the FPL aerial to underground conversion, certain poles have aerial attachments by Comcast or Frontier. All current or existing Comcast and Frontier aerial facilities shall be undergrounded and removed concurrently with the FPL undergrounding. The Town also desires the installation of a town-wide backbone fiber for future connectivity and street lighting. The Town is conducting this public meeting with potential contractors that are currently approved FPL Contractors, and potential sub-contractors for an upcoming opportunity to submit proposals for this Design-Build project. This public meeting is for informational purposes only. Submit any questions in writing to the Towns Purchasing Manager, Kari Kennedy. [kkennedy@longboatkey.org](mailto:kkennedy@longboatkey.org)
