

RED TIDE

CLEARING ASSISTANCE

Thank you for your patience as the Town continues work on the red tide cleanup. As we continue our efforts, we wanted to share information regarding disposal of dead sea life by residents, homeowners' groups, resorts, and/or condo properties.

- **For those who would like to collect dead sea life material from your properties, you can do so by double bagging the material and placing in your Waste Management receptacle to be serviced on the normal route schedule.**
- **If you are using private contractors, please ensure they are disposing of dead sea life properly.**
- **Please do not pile dead sea life on the beach for the Town to collect as this slows the cleanup process with the equipment that we use.**

For gulf side properties who are actively raking and removing material from their own beaches, your help is very much appreciated!

Please continue to visit www.longboatkey.org for daily updates regarding the Town's clearing efforts.

If you have any questions, please contact Public Works at 316-1988.
For Waste Management questions, you can contact them at 753-7591.
